

School Council Notes

May 1st, 2014

Present: Lisa Desjarlais, Virginia Servos, Ron Mannino, Sarah Frenette, Doreen Reid, Mike Hayes (note-taker)

- 1) Tentative date – May 15th for additional meeting.
- 2) Survey data
 - a. School Council members should give feedback to Lisa by next meeting.
 - b. We will discuss at that meeting.
- 3) School Improvement Plan –
 - a. I.C. Doing well with implementation of Everyday Math. Big Ideas liked. Lisa will get info from teachers about whether they feel like they need more support in implementation and whether it provides enough opportunities for challenge. Potential survey question as to whether students are getting the right level of support and challenge.
 - b. I.D. There is a new unit in grade 3. Grade 5 stills needs the training in it. Seeds of science training have started but not all training is done. Lisa will check in with teachers about whether they will need additional support in implementation.
 - c. I.E. not sure status of this. There was a lot of training but then nothing happened after this.
 - d. I.F. None of this has been done. Lisa is going to take this one out.
 - e. I.G. Just started to use AIMSWeb. Started looking at Inform. Taking all end of unit and benchmark assessments and putting them in. Lisa would like to keep in – not sure if the language should stay the same.
 - f. UDL needs to be added in – In Goal 2 – Teaching all students.
- 4) Adjourned at 8:45. Lisa will check to see if May 15th works for everyone.

HW – Review Goal 2 and send suggestions on survey.
